ABOUT ME

I am a backend web developer with 4 years of hands-on experience. I truly love development because of its challenges and unusual tasks that stimulate you not to stand on the spot but develop and learn something new all the time.

SKILLSET

Python3 | FastAPI/Pydantic | SQLAlchemy | peewee | SQL/Postgres | MongoDB
Redis | Docker | Portainer | Git/GitHub | Linux | Bash scripting | Nginx | Apache
Supervisor | AWS | Firebase | Postman | WebSocket | REST API | GraphQL | CI/CD
GitHub actions | Pytest | Selenium

Additional skills:

HTML/CSS | JS ES6+ | React/Redux Toolkit | Next.js | UIKit | Vercel | Figma

WORK EXPERIENCES

FULLSTACK DEVELOPER

February 2019 - up to present | Self-employed/Freelancer

- Built several corporate websites, delivering high-quality and user-friendly digital experiences for clients.
- Developed telegram bots with asynchronous request processing, third-party integrations, and a multifunctional admin page.

BACKEND DEVELOPER

April 2020 - February 2022 | Web-Studio POLSKOY

- Developed and maintained several CRM systems for internal use, including client management, analytics, and call recording.
- Built a web application for a nursing home with CRUD functionality, synchronized notifications, and questionnaire collection.
- Designed and implemented a fitness website with live chat, measurement tracking, and a monthly payment system.
